

GREE Compressor Failure Verification Policy

Policy Details

GREE requires that warranty requests for a compressor failure be substantiated and confirmed with our Technical Department.

- It is required that diagnostic data be submitted for review by the Technical Department in cases where the compressor is suspected to be the problem.
- There is an online web form that must be filled out and submitted.
- Claims for a Noisy Compressor will require speaking with our Technical Department as there are many things that could cause noise not related to an actual compressor failure.
